

Learning through Integration of Meaningful Experiences

A music therapy based group program that focuses on using music therapy techniques to develop/maintain/strengthen skills in social, cognitive, emotional and psychological areas of development within a safe and success oriented group experience.

LIME! Program

LIME! is an hour long, weekly, 10 week program for children having challenges with social interactions within their school or home environment.

Program Goals:

To Foster Self-awareness and Self-esteem by learning to identify and regulate various emotions and engaging in success oriented social experiences.

To Provide Structure and Predictability for Learning by increasing attention span, concentration, comprehension of instructions, organization, planning and problem skills.

To Provide Language Support by initiating and sustaining peer/family interactions with confidence.
